Even one sale shifts your entire mindset.

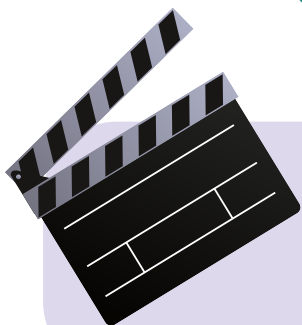

# Step 2 – Set Up Your Passive Income Funnel

*You made your first sale. Now build a system to sell for you.*

Create digital products to sell under your own brand/name. Choose a topic that you are passionate about or really like, and make sure your product provides real value that can help people. Remember — your value isn't in having new information. It's in organizing it clearly and making it useful. That is what you are being paid for.

*Quality is Key! You cant build trust and sales with poor products that don't help people*

# Step 3 – Drive Traffic Without the Chaos

*One quiet channel. One consistent plan. That's all you need.*

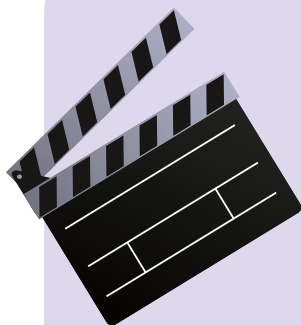

You don't need to go viral to succeed — you just need to show up with value, quietly and consistently. One solid traffic channel is enough to grow your income behind the scenes. This is where your funnel starts working for you.

Channel	Why Use It	Tools
Pinterest	Long shelf-life, passive discovery	Canva, Tailwind
TikTok	Fast reach, faceless formats work well	CapCut, Canva, TTS tools
Blog	Search-friendly, builds long-term traffic	WordPress, Google Docs
Instagram	Good for repurposing reels + stories	Canva, <u>Mavic</u>
Facebook	Active FB groups for promo + low-key networking	FB Groups, <u>Mavic</u>

*Start with one channel — ideally where your audience already hangs out — then expand once your funnel is working.*

## ✓ Quiet Content Ideas

- Repurpose pins from blog or TikTok captions
- Use text overlays, no talking, and trending sounds
- Write blog posts answering your audience's real questions
- Batch your content weekly using tools like Mavic or Tailwind  
— 1 hour of effort = days of reach
